ABOUT THE PROGRAM

Driving west on Broad Street over the Scioto River you will see a Phoenix rising from the ashes of its predecessor. It is the new National Veterans Memorial and Museum.

This will be neither a war memorial nor a military museum. NVMM will take visitors on a narrative journey telling individual stories and shared experiences of veterans throughout history. It will pay tribute to the sacrifices of servicemen and women and their families. History will be presented in a dynamic, participatory experience with photos, letters and personal effects, multi-media presentations, and interactive exhibits. Together, these elements will link our national story to the larger context of world events since our country's earliest days, and will demonstrate the importance of individuals in shaping our history.

Don't miss this opportunity to hear more about this exciting addition to our beautiful Downtown Columbus.
